

INTRO TO LEAN

This is a **one-day** overview of all Lean principles with a fun and interactive simulation to demonstrate the application of the Lean tools. This class is a pre-requisite for many other classes and is a very beneficial class for people new to Lean principles or individuals who need a broader Lean education.

Date: Wednesday April 19th

Time: 8am - 5pm

Location: Olympus Controls, 18280 SW 108th Ave, Tualatin, OR

Cost: \$150 per person (\$250 nonmembers)

Registration: email Jennifer@nwhpec.com include name, email, job title

Key Concepts:

- Introduction to Lean is a beginning level course which teaches participants the basic concepts of Lean Thinking. It is suitable for participants who work in office or manufacturing environments and includes many real-world examples from a wide variety of work environments. Topics covered include:
 - Waste, Value Add, Leadership, Customer Value, Strategy
 - Continuous Improvement Cycle, 8 Wastes, 5S, Visual Controls, Physical Layout, Single Piece Flow
 - Value Stream Mapping, Takt Time vs Cycle Time, Pull, Kanban
 - 5 Why's, Cross Training, Set Up Reduction/TPM, Standard Work, Mistake Proofing, Team Huddle, Metrics
